GOVERNOR.

It is the opinion of many that W. S. Taylor, Governor pro tem, will, within a few days, retire to the private walks of life. What will be the result of the pending contest depends altogether on the law and evidence. The committee will hear evidence, their report will go before a joint session of the Legislature for approval, and whatever that decision may be, will be final, and Mr. Taylor will be duly notified. If it is against him he will be quick to vacate.

The Hon. John Whallen, the good man who recently took such an active part in "pure" politics in Louisville is in the middle of a very bad fix. There is \$4,500 in a little box that is worrying him very much just now. But then he is borrowing trouble, for if he is indicted and found guilty it will be an easy matter to convince the little pea-vine acting as Governor, to whom he has been such a great friend, of his innocence and a pardon will be forthcoming.

TO OUR READERS.

Frequently editors do not print their paper during the holiday week. Instead of omitting the issue of last week we printed only a half-size paper. Circumstances which we could not well control, and obligations assumed which had to be met, necessitate an issue this week smaller than our usual size, yet we hope to give in condensed form the usual amount of news.

NO CHANCE.

Whallen wanted the people to believe that there was a paper in that safety vault box stating that the \$4,500 was on a wager, but it wasn't there and Whallen is now getting up another one that he may be ready for trial.

YOU CAN'T CATCH HIM.

That's what they said about Whallen, but he was a catch of Senator Harrell's without the use of a gaff hook.

Proposition to Fit Up the Public

Schools with Bath Tubs.

At the annual convention of the Northern Indiana Teachers' Association, held some weeks ago, there were present several of the leading educators of the Central West. At this meeting it was declared that "inasmuch as frequent bathing is necessary for the maintenance of good health, and as unhealthy people can not do good work in the school room, it would be well for public school buildings to be fitted up with bathing facilities for the pupils with no opportunity for bathing at home can have this privilege at school."

You Can't Dodge Them

Did you ever try to dodge the rain-drops? Did not succeed very well, did you? It's just as useless to try to escape from the germs of consumption. You can't do it. They are about us on every hand and we are constantly taking them into our lungs.

Then why don't we all have this disease? Simply because these germs cannot gain a foothold in a strong throat and lungs. It's when these are weak that the germs master. The body must be well supplied with fat. The danger comes when the blood is poor and the body is thin. If your cough does not yield, and your throat and lungs feel raw and sore, you should not delay another day. Take

Scott's Emulsion

of Cod-Liver Oil with Hypophosphites at once. It will heal the inflamed membranes and greatly strengthen them as well. The digestion becomes stronger, the appetite better and the weight increases. The whole body becomes well fortified and the germs of consumption cannot gain a foothold.

It's this nourishing, sustaining and strengthening power of SCOTT'S EMULSION that has made it of such value in all wasting and exhausting diseases.

Mrs. Stanford Disposes of Her

Fortune.

Mrs. L. Land Stanford writes that she has now disposed of every vestige of the enormous fortune bequeathed to her by the late Senator Stanford, and has recently signed deeds transferring all his real estate to the trustees of Leland Stanford University. This includes the largest cattle ranches, house-breeding establishments and vineyards in the world, with valuable farms, country houses and large tracts of wild land. The deed required \$7,000 in internal revenue stamps. Mrs. Stanford had previously transferred to the trustees of the university all her personal estate, embracing stock and bonds valued at \$15,000,000, and, as far as the actual ownership of property is concerned, she is now as destitute as on the day on which she was born. She has a contract, however, under which she is to receive for life an annuity of \$25,000, to be used as she pleases, and all her relatives were liberally provided for in Mr. Stanford's will.—Washington telegram to the Chicago Record.
